

Mohamed Shipet Hamad

Full-Stack .NET Developer

Giza, Egypt | +20 1281041728 | mohamedshipet4@gmail.com | [LinkedIn](#) | [GitHub](#) | [portfolio](#)

SUMMARY

Full-Stack .NET Developer with 2+ years of experience building scalable web applications using ASP.NET Core, React, SQL Server, and PostgreSQL. Passionate about developing clean, secure, and high-performance software that solves real-world problems.

TECHNICAL SKILLS

C#, JavaScript, SQL, ASP.NET Core, ASP.NET MVC, Entity Framework Core, REST APIs, SignalR, JWT Authentication, React, HTML5, CSS3, Bootstrap, SQL Server, PostgreSQL, Git, Docker, AWS S3, Paymob, Clean Architecture, SOLID, Agile

EXPERIENCE

Freelance Full-Stack Developer | Nafezly & Mostaqi

2024 – Present

- Delivered 15+ custom web applications for clients across healthcare, e-commerce, and business sectors using ASP.NET Core, React, SQL Server, and PostgreSQL.
- Designed and developed secure REST APIs, JWT authentication, and responsive web interfaces following Clean Architecture and SOLID principles.
- Collaborated directly with clients from requirements gathering to deployment, delivering production-ready solutions and ongoing technical support.

Full-Stack .NET Developer (Part-Time) | Star+ Games Startup

2025 – Present

- Developed and maintained production features using ASP.NET Core and React.
 - Designed and implemented REST APIs, optimized backend functionality, and resolved production issues.
 - Built REST APIs, fixed production issues, and collaborated with the team using Git and Agile workflows.
-

PROJECTS

Gahez | ASP.NET Core • PostgreSQL • Paymob • AWS S3 [GitHub](#)

- Restaurant management platform supporting online ordering, reservations, payments, and live notifications.
- Integrated JWT authentication, Paymob payments, SignalR, and AWS S3 cloud storage.

Podcasty | ASP.NET Core • SQL Server • SignalR [GitHub](#)

- Podcast streaming platform with role-based authentication, comments, likes, and playback tracking.
- Developed scalable REST APIs and real-time notifications using SignalR.

SplitVCS | C++ • Go • .NET • Rust (Tauri) • Svelte • TypeScript [GitHub](#)

- Built a cross-platform version control system for large media assets using Rust (Tauri) and Svelte.
- Integrated C++, Go, and .NET services while optimizing storage and file synchronization through custom hashing and compression techniques.

EDUCATION

Bachelor of Computer Science (2022-2026)
Assiut University, Egypt
